

Account Support

This guide covers common account access issues.

Locked accounts

After repeated unsuccessful sign-in attempts, an account may be temporarily locked. Wait 15 minutes and try again. If access remains blocked, contact Support.

Password reset

Use the Forgot Password option on the sign-in page. A password reset email is normally sent within five minutes. Check spam or junk folders if it does not arrive.

Profile changes

Customers can update their display name and contact details from Account Settings. Security-sensitive changes may require verification.
