

Payment FAQ

This FAQ explains supported payment methods and common payment questions.

Supported methods

Customers can generally pay using Visa, Mastercard, American Express, and supported digital wallet options.

Failed payments

If a payment fails, verify the billing information and available funds, then retry once. If the payment continues to fail, contact Support with the transaction time.

Duplicate charges

If a customer sees two charges for one purchase, do not submit repeated payments. Contact Support so the transaction records can be reviewed.
